Subject: Website- 3rd and final requirement!!

Dear collaborator:

Thank you for continuing with the website. I would like you to add one more page with the images and information that I attached.

The page that you will add will be a form which allows us to also see the data entered by people. And for the last time the page should adapt to different devices.

After doing all this you will completely finish the web page.

I liked working with you on this project.

Send me the update file and the link where you post the code.

Atte:

Mindy Rox
